

SUMMARY

A versatile product designer and front-end developer eager to represent the user throughout the entire product lifecycle and solve complex problems.

EXPERIENCE

Product Designer | The McClatchy Company | Feb. 2017 - Present

- Part of the Product Experience team that creates wireframes, mockups, and prototypes for a diverse range of products. We create user journeys, diagram user flows, participate in and run user testing, conduct user research, ensure efficient development handoffs and more.
- Provides development support to our Audience team, DSP dev team, and A/B testing team. Creates digital ads, codes and designs marketing and transactional emails.
- Environment: Sketch, Photoshop, Illustrator, Animate, Invision, CSS, HTML, JavaScript ES6, SASS

Developer & Designer | Freelance | 2015 - Present

- Freelance designer/developer that creates websites and apps for a variety of clients.
- Provides extra-mile support to help clients grow their business and achieve their project goals.
- Environment: HTML, JavaScript ES6, JQuery, CSS, PHP, Sketch, Adobe XD (Portfolio at Matthewsasso.com)

Technical Recruiter | DataStaff Inc. | June 2016 - Feb. 2017

- Handled and prioritized a large inflow of positions on a daily basis. Continually established and maintained a large pipeline of qualified IT professionals across several fields.

Lead Home Energy Advisor | Next Step Living, Inc. | Sept. 2014 - Sept. 2015

- Lead a team of Home Energy Solutions professionals and managed customer accounts.
- Worked to decrease overall home energy consumption and utility bills for hundreds of Connecticut residents.

Digital Media Producer | Hartford Courant | Sept. 2013 - Sept. 2014

- Increased Courant Facebook page likes 273% from 15,000 to 56,000 between Sept. 2013 - Sept. 2014.
- Mastered multiple internal CMS and helped guide new employees.
- Developed data-driven visual pieces for Courant.com, lead marketing campaigns using email newsletters, automated email, social media, press releases and more.
