SUMMARY

A versatile product thinker eager to represent the user throughout the entire product lifecycle and solve complex design and development problems.

EXPERIENCE

Technical Product Manager/Product Owner | McClatchy | Sept. 2020 - Present

- Creates product roadmaps through effective time management, planning, and data analysis to create a unified vision.
- Provides leadership in the continued development of our subscription platform.
- Leads our brilliant team of developers, QA testers, Scrum Masters and Business Analysts as we grow our digital subscription revenue, improve our product's User Experience, and push our projects over the finish line.
- Refines our backlog, defines ready and done, writes user stories and user acceptance testing criteria.

Product Designer/Product Manager | McClatchy | Feb. 2017 - Sept. 2020

- Part of the Product Experience team that creates wireframes, mockups, and prototypes for a diverse range of products. We create user journeys, diagram user flows, participate in and run user testing and conduct user research to create user-first product roadmaps and a unified product vision.
- Creates design systems and living style guides to ensure efficient development handoff.
- Provides development support to our Audience team, DSP dev team, and A/B testing team. Creates digital ads, codes and designs marketing and transactional emails.
- Environment: Sketch, Adobe: Photoshop, Illustrator, Animate; Invision, CSS, HTML, JavaScript, SASS/SCSS, Hugo

Developer & Designer | Freelance | 2015 - June 2021

- Freelance designer/developer that creates websites and apps for a variety of clients.
- Environment: HTML, JavaScript, JQuery, CSS, PHP, Sketch, Adobe XD (Portfolio at Matthewsasso.com)

Technical Recruiter | DataStaff Inc. | June 2016 - Feb. 2017

- Handled and prioritized a large inflow of positions on a daily basis. Continually established and maintained a large pipeline of qualified IT professionals across several fields.
